

We give you the CAPS edition of the ever-popular,

Computers, part of your life

- CAT textbook!

This is a tried-and-tested textbook with a great track record, and this new edition includes:

- All the prescribed material, presented in a logical, meaningful and understandable way
- Material contextualised in real-life situations within the world of the learner
- Good activities, designed to enhance knowledge and skills and to thoroughly prepare learners for tests and exams
- A compact summary and overview at the end of every module, with:
 - A glossary and explanation of important terms and concepts
 - Useful tips and recommendations
 - Theoretical and practical exercises for revision, which will test both knowledge and application.

The **teacher's guide** is a printed book and includes a CD. It provides:

- Methodology tips for each module
- Solutions to all activities
- PowerPoint presentations
- Videos to explain key concepts of practical work

All of this is designed and brought to you by a team of teachers with extensive experience in the subject. This experience has allowed us to see first-hand what works, and we have left no stone unturned in smoothing the way for you and your learners while still tapping into the fun and enjoyment of the subject.

The Study Opportunities team has a proven track record of providing first-class Learning and Teaching Support Materials for many years. This book will be there to support you and your learners in every step of the way on your journey through this incredible subject.
